

# UP 65

strong and flexible

Features

## Technical data

150 kN Crimp Force | Electrical connection 230 V, 50 Hz

## High-quality

Linear crimping motion provides high process quality and is an ideal choice for automotive and industrial applications

## Application range

Uninsulated contacts up to 300 mm<sup>2</sup> | Insulated terminals up to 300 mm<sup>2</sup> | Automotive connectors up to 120 mm<sup>2</sup>

## Process-optimized

Contact hold function through programmable return stroke with 30 memory settings, adaptable to your processing requirements

## Flexible

React to different production orders with tool-free quick-change adapter system

## Light

With 145 kg compared to other machines a lightweight, compact design, hydraulic aggregate integrated

## Reliable

The production quantity is recorded by the electronic piece counter

## Programmable

2 user interfaces (Setup | Production), lockable

## Individual

Different adapters allow almost unlimited variability for individual customer solutions (use of external dies possible)

## Varied

A selection of standard processing solutions with and without positioning system available from stock

## Process-safe

Forced sequence control provides additional process quality

## User-friendly

Safety or two-hand operation optionally available

## Customized

Customized versions in design and function are available on request

## Reliable

Quality Made in Germany and CE compliant
