20 kN Crimp Force | Pneumatic | Air pressure 6 bar | 87 PSI

## Process-safe

Due to forced sequence control and with linear crimping movemennt, ideal for use in automotive and industrial applications

## **Application range**

Uninsulated contacts up to 16  $mm^2$  | Insulated terminals up to 10  $mm^2$  | Wire end ferrules up to 50  $mm^2$  | Automotive connectors up to 10  $mm^2$ 

## Different

UP 35 BA with contact hold function, no hands in the working area due to additonal lever (mountable for left and right-handed users), ideal for miniatur plugs < 0,14 mm<sup>2</sup>

## **High-quality**

SSC with safety function - working without finger protection, operate contact hold function with double foot pedal, no hands in the working area

## Flexible

React to different production orders with tool-free quickchange adapter system

## Portable

Versions

 $25\ \text{kg}$  weight, space saving design and portable to any place and immediately ready for use

## Pneumatic Crimping Machine UP 35

Linear working mechanism (standard version).

## Pneumatic Crimping Machine UP 35 | BA

Linear working mechanism. With integrated contact holding system operated manually by hand lever.

## Reliable

The production quantity is recorded by the electronic piece counter

## Individual

Different adapters allow almost unlimited variability for individual customer solutions, use of external dies possible

## Varied

A selection of standard processing solutions with and without positioning system available from stock

## User-friendly

Safety or two-hand operation optionally available

## Customized

Customized versions in design and function are available on request

## Reliable

Quality Made in Germany and CE compliant

## Pneumatic Crimping Machine SSC

Linear working mechanism. Can be operated without finger guard and with double foot pedal.
